BLINDS & ENCLOSURES

Outdoor Living has become an Australian way of life. With Freedoms range of blinds and enclosure solutions we can turn any patio, verandah or alfresco area into a true Outdoor Living Room.

For the entertainers or those just wanting more space, speak to our outdoor living experts for a custom made solution.

OUTDOOR CAFÉ BLINDS

With **Clear PVC and Sunscreen mesh** options, the Freedom Slidetrack Blind system helps protect you and your outdoor area from wind, sun, rain and insects.

All exposed components are made from high quality stainless steel and architecturally designed aluminium allowing a **single blind to span 3m high and 5m wide.**

Gone are the days of flapping, pulley and zipper style blinds. With its unique Mesh retention track guide, one handed lock operation, multiple screen lock positions and spring tensioned roll, it is surely the **easiest and most effective blind system on the market!**

■ Removable Posts and **Remote Motorised Blind** options are also available.

**Detailed Specific Product Brochures available on-line
www.freedomgroup.net.au**

ENCLOSURES

Freedoms Suite of products allows you to **enclose and re-open any outdoor area.**

Want to keep insects out of your alfresco area while keeping that open space feeling? The Infinity Zipline retractable screen could be your answer.

Maybe preventing wind & rain while keeping the area warm is priority? Freedom Slidetrack Blinds or Plantation Shutters will do the trick.

'All of the above', you say 'is what is needed'. Then try a combination of products or try Freedoms unique **Outdoor Bi-fold door system** which can be inserted with flyscreen or sunscreen with removable clear acrylic or PVC panels – allowing you to enclose the room in winter & have fly/sun protection in the summer – all in one system!

Whatever your choice, we can help **create your perfect Outdoor Living Room.**

DOMESTIC DOORS & WINDOWS

A **Stylish & Competitive** range of G James Doors and Windows:

245 Series Sliding Door: A wide selection of possible configurations including multi-stack sliders and 90° corner openings. Safety Glass is a standard feature.

048 Series Awning & Casement Windows: Designed to protect the home interior from weather while leaving the window open, ensuring constant air-flow.

131 Series Sliding Window: Designed to maximise ventilation without protruding frame from the building, allows flyscreen to be external.

136 Series Double Hung Window: A practical alternative to a sliding window with your choice of 'spring-balance' or counter-balance' operation.

7 YEAR GUARANTEE

Australian Manufactured ■ 30+ Colour Range ■ Eco Friendly Options

COMMERCIAL DOORS & WINDOWS

A **Premium** range of Alspec Doors and Windows gives the perfect solution to allow flow between indoor & outdoor living:

Hawksbury E2/E3 Bi-Fold Door: Designed with large floor to ceiling applications in mind. Has the ability to span 3m high and **8m wide in each direction** (max panel size 1m wide). The top-rolling system provides a smooth, trouble free operation for inward or outward stacking with an odd or even number of doors.

Pro-Glide Sliding Door: Also designed with large floor to ceiling applications in mind. Has the ability to span 3m high and **7.2m wide in each direction** (max panel size 1.8m wide).

Extra features for range include:

- Stainless Steel Hardware
- 28mm Double Glazing Option
- 90° post free corner options
- Infinity Zipline Retractable Fly Screen Option

10 YEAR GUARANTEE

SCREENS

Integrate our doors and windows with Freedoms range of screens, or add them to complement your existing doors.

From Retractable Fly Screens to AS5041 Certified Security Screens, you'll find the perfect solution.

RETRACTABLE FLY SCREENS

Designed to retro fit & screen difficult door applications like French, Bi-fold or Multi-Slide Stacking Doors. Freedom Retractable screens enhance the beauty of any door, window or alfresco area.

Elite Roll-Away: Our flagship retractable screen designed for domestic application. **Screen stops in any position** with its patented automatic Braking System. Covers Spans of 2.7m high and 2m wide for a single screen & 4m wide for a double screen.

Infinity Zipline: Our latest release is designed for commercial application & large openings. With all the features of the 'Elite Roll-Away', plus a market 1st **mesh retention system, wind tested up to 350km/hr.** Spans 3m high & 4.5m wide for a single screen & 9m wide for a double screen!

Japanese Pleated: A **unique 3mm high, flat bottom track** makes this screen system perfect for applications requiring a flush bottom track finish.

Modern Designs ■ Custom Made ■ Quality Assurance

SECURITY SCREENS

With safety in mind, select from our full range of Safety & Security Doors.

SecureView Security Door: Triple lock, stainless steel fixings & 316 marine grade stainless steel mesh produces the ultimate security door with incredible strength & **no bars or grilles restricting vision.**

Colonial Casting Safety Door: **Heritage style screens** made with cast aluminium grilles give a light weight solution with a multitude of designs. Add the new 2mm Aluminium Perforated mesh to create a full AS5041 certified security door with style.

Secure Grille Safety Door: **Handcrafted wrought iron grille** designs in this range give all the same features as Colonial Castings with the extra strength of solid steel.

Diamond Grille Security Door: A popular Security Door **for those working within a budget.** The clever diamond design still achieves an AS5041 security certification.

■ Triple Lock, Pet Doors & One Way Vision mesh can be added to most door designs.

SHUTTERS

Shutters are a stylish way to control light, ventilation and sound. Protect against weather and intruders and add privacy to new & existing homes.

Freedom's full range of roller shutters & plantation shutters will provide the perfect answer to any internal or external application.

PLANTATION SHUTTERS

We have a quality range of **Basswood Timber, PVC & Aluminium Shutters**. With the choice of 3 product types our advice will be unbiased and requirement based.

Provence Timber Shutters: Quality Basswood timber for internal window applications. Choose from local or fully imported shutters in 25 different colours or stains.

Riviera PVC Shutters: Immune from moisture & humidity, this range provides a higher quality shutter for internal windows & doors with the same colour options as the Provence Timber Range.

Bermuda 2000 Aluminium Shutters: For external applications on windows & outdoor areas. Aluminium Shutters are a great way to control wind, sun & rain for alfresco & entertaining areas, resulting in the perfect outdoor living area in all conditions.

■ All shutter types can be fixed, hinged, sliding or bi-fold with either fixed or adjustable blades. The options are endless!

Free Home Quotes ■ Save \$\$\$ ■ Finance Available

ROLLER SHUTTERS

Rollita Roller Shutters are the great all-rounder for home comfort & window protection.

■ **Privacy:** During the day & night you can have complete privacy. A simple adjustment to the slat distance can control the amount of light & ventilation you want. Annoying **outside noises can be reduced by up to 50%**.

■ **Comfort:** **Reduce summer heat** by up to 90% & **reduce winter heat loss** by up to 70% through your windows. Reduce heating & cooling running costs all year round.

■ **Protection:** Made from interlocking, architectural aluminium slats which resist penetration & an internal locking mechanism that locks the shutter in position when down, it **is the perfect foil & deterrent against would be intruders**.

Rollita Roller Shutters even provide an **effective barrier against** flying ash in times of **bushfire**.

■ Motorised & manual winder options available
