## AWNING & CASEMENT WINDOWS »

At home in either traditional or modern styles of architecture, the Freedom - G.James 048 Domestic Series Awning and Casement Windows represent great appeal, value and versatility.

Which type you select will depend on the function you require. The 'hood' effect created by an awning window protects the interior from light rain allowing the sash to remain open and ensuring a constant flow of fresh air. Alternatively, a casement sash effectively captures and directs any cool, prevailing breezes to the important areas of your home.

048 DOMESTIC SERIES

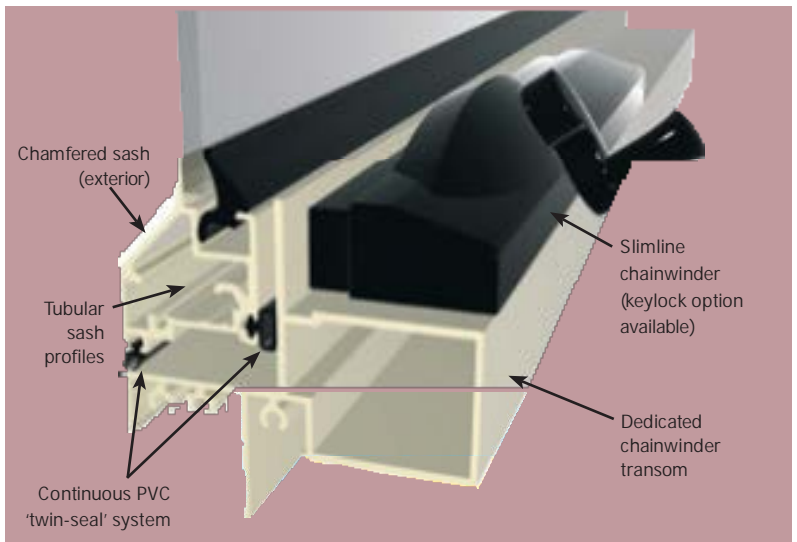

Decorative bars (shown above) are an optional extra to this product.

» For further information relating to the standard size range, upgrade packages, possible configurations and other important considerations refer to the G.James Residential Product Selector.

G.James is an Accredited Member of the Australian Window Association Product Accreditation Program and an environmentally aware organisation.†

† G.James residential extrusions are manufactured in Australia from billet produced using recycled aluminium. This billet requires approx 90% less power to produce than primary billet.
