SLIDING DOORS »

Let the Freedom - G.James 245 Series Sliding Door be your gateway to the outdoors. The innovative features, range of design options and use of functional, reliable hardware combine to set this door apart from the competition. Freedom of design allows you to maximise your opening area - 90° corner configurations are also available. For sheltered positions, a low profile sill is available to reduce the step-over height of the bottom track.

Features:

- Wide selection of possible configurations including multiple sliders and 90° corner openings
- Deep draining sill profile, corner gaskets to all frame joints and sealed interlocks promote enhanced weatherproofing properties
- Colour matching ribbed thresholds provide a neat, flush finish to the head and sill tracks
- Height adjustable, non-corrosive ball bearing roller system offers long term performance and a smooth sliding action
- A range of interlock combinations ensures compliance with relevant Australian Standards
- Fly, security and Crimsafe screening options
- 7 year 'peace of mind' guarantee *

* Conditions Apply

245 DOMESTIC SERIES

» SLIDING DOORS

» The standard 245 Series Door features quality rollers, safety glass with visual motif and a high strength, twin-strike 'D' handle. Should you desire additional security, a range of key lock and screening options have been made available.

For further information relating to the standard size range, upgrade packages (security, acoustic and energy efficient), possible configurations and other important considerations refer to the G.-James Residential Product Selector.

G.James is an accredited member of the Australian Window Association Product Accreditation Program and an environmentally aware organisation.†

† G.James residential extrusions are manufactured in Australia from billet produced using recycled aluminium. This billet requires approx 90% less power to produce than primary billet.
