## SLIDING WINDOWS »

Enhance your surroundings with the contemporary style and quality features of the Freedom - G.James 131 Domestic Series Sliding Window. Precision designed to satisfy both the demands of the home owner and Australian Standards, this window clearly offers appeal, functionality and structural integrity. Recognising the importance of weatherproofing, Freedom - G.James Sliding Windows incorporate fully sealed corner joints (frame), continuous weatherseals (sashes) and a range of sill options.

### Features:

- Height adjustable rollers consisting of stainless steel ball bearings and large 16mm diameter wheel ensures long term performance and a smooth sliding action
- A sill inlay to assist with drainage and restrict the accumulation of dirt and matter in the sill cavity
- A pivot action, self-latching handle located at the mullion for easy access and convenience†
- All sashes are independent of the perimeter frame to minimise the transfer of loads onto the glass
- 7 year 'peace of mind' guarantee\*

† Keyed secondary ventlock available (additional cost)  
\* Conditions Apply

» SLIDING WINDOWS

» Your security has also been addressed with the inclusion of centrally located handles, interlocking mullions and the provision for fly, barrier or Crimsafe screens. For further information relating to the standard size range, upgrade packages (security, acoustic and energy efficient), possible configurations and selection criteria refer to the G.James *Residential Product Selector*. G.James is an accredited member of the Australian Window Association Product Accreditation Program and an environmentally aware organisation.†

† G.James residential extrusions are manufactured in Australia from billet produced using recycled aluminium. This billet requires approx 90% less power to produce than primary billet.
